

AFMENA

CLASSIC COLLECTION

luxurious neutral coloured silk floral arrangements for weddings

Perfect for a timeless and classic Wedding. We use hydrangeas, orchids and roses with a combination of white, ivory and cream tones to achieve natural and elegant floral designs.

A popular option is to incorporate the use of fresh gypsophila in the floral arrangements for an elevated natural finish. Prices reflecting this option have been starred.

We can repurpose floral arrangements from the Ceremony to the Wedding Breakfast room if both locations are at the same venue. In this case, Perspex plinths to place the flower arrangements on top of would be charged at £15 per item.
